

COMMERCE CHAMBER

This organisation went through a digital transformation to deliver on its corporate objectives for growth. This included a cyber security rethink, repositioning, and improvement.

Solution:

- ❖ New cyber security strategy was developed. Then a business case, was prepared and associated projects were defined and agreed.
- ❖ The main drivers were to improve resilience, achieve a more robust security posture and regulatory compliance for payments and privacy, plus compliance with ISO⁽¹⁾/IEC 27001 and 27002, and ASD⁽²⁾ 'Essential Four' strategies and controls.

Benefits:

- ❖ Major reduction in cyber security risk exposure, more robust stance, and greater resilience were achieved.

INDUSTRY ASSOCIATION

Provision of Cyber Security Advisory Services

- ❖ Chair, facilitate, and participate in webinars, round-table debates, seminars, presentations, conferences, and other events.
- ❖ Assist with long term cyber security advocacy agenda. Lead and participate in preparing submissions to governments, be an influencer, and improve awareness among members.
- ❖ Provide Cyber Security insights and expertise to executives, members, and the broader financial services community.
